## MODULE AIM

The aim of this module is to give you an opportunity to make the first steps from student to newly qualified practitioner. It will enable you to develop into an independent practitioner, fit for practice, by providing you an opportunity to engage in complex situations with support from your practice educator.

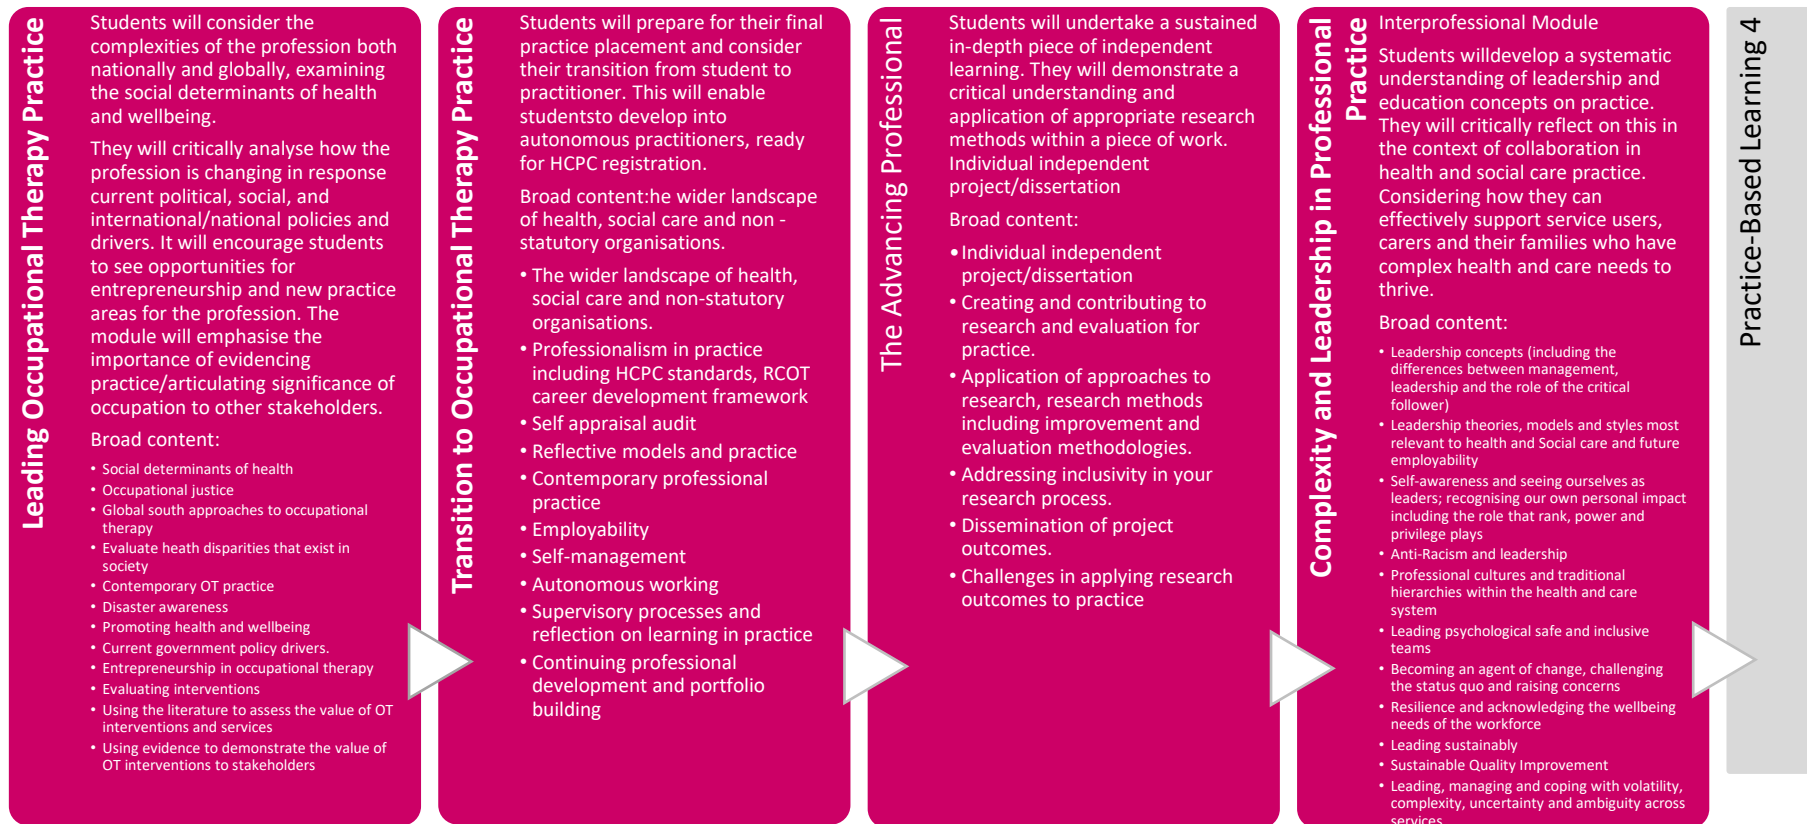

This module aims to give you the opportunity to use reflection to review and develop your practice, to work in a client-centred way and to integrate your knowledge and experience from the course to critically appraise your own and current Occupational Therapy practice.

By the end of the module, you will be able to:

1. Apply, appraise and evaluate assessment, decision making, and interventions in that area of practice, including planning and carrying out assessments and interventions independently.
2. Demonstrate interpersonal skills, by communicating effectively, appropriately and sensitively with service users, carers, and colleagues, producing accurate and concise written and verbal reports.
3. Demonstrate professional behaviour and safe practice at all times, including effective management strategies, insight into abilities and learning needs, and reflection to synthesise learning experiences.
4. Critically appraise your own, and current Occupational Therapy practice, including the impact of policy and change in this practice setting.

## PRACTICE-BASED LEARNING RELATIONSHIP TO ACADEMIC MODULES

## FINAL (SUMMATIVE) ASSESSMENT

For further detail please refer to [HCPC Standards of Proficiency](#)

A PASS grade should be awarded if a student has achieved the learning outcomes and has consistently performed well in all areas. If they have not had opportunity to demonstrate a skill, due to the practice-based learning setting, they should not be penalised for this. Please indicate clearly if the student has exceeded expectations and worked above the pass criteria.

A FAIL grade should be awarded if a student is unable to achieve the module learning outcomes, because of unsatisfactory performance, with significant weaknesses in one or more areas. A FAIL in any section of the final report will constitute an overall failure of the practice-based learning experience. The university must have been involved and should be present for any fail at final report.

Failure of the practice-based learning experience means that it will have to be repeated and the student will be assessed again against the same criteria. A second failure will require the student to withdraw from the programme.

Comments must be written to support the PASS/FAIL grading of performance.
